

DCC During Covid-19 Pandemic

Gift for Volunteers & staff

The success does not fall from the sky to us. On behalf of school's manager, I am always proud of the people who try to help DCC grow. I am not the only one who makes my work well-processed but sponsors, my colleague and volunteers play a key role to support DCC forward . Here are small gifts to them for efforts they have been with the school though it is a very tough circumstance.

The Public Speaking Contest

The public speaking class has founded more than 2 years. The reason why it has been set up, we aims at building more confidence in English speaking, inspiring students to be brave enough to communicate with different people in public, knowing how to work in group with their friends and doing more researches on topics assigned by a teacher. This year, we were so proud of three girls who did the best to succeed in the contest in couple months ago.

The Online Classes

The online classes are the best choice for the pandemic. Though we live apart. It is a global face. but I think every country does the same. DCC has started the online classes since the first outbreak of covid19. We know that there are many challeges to be faced during study because we are a developing country. However, this program gives us so much attention due to the internet problem, First students feel a bit boring. Now they really enjoy learning. It is a new technology they have ever met so far.

Reward for winners

There are many ways to encourage students when they get a success. DCC decides to provide the winners with some gifts for their efforts. We hope this will be a good example for others to be followed. During a very difficult time, we always inspire them to focus on their study though we know that it is a new technology but we can gain new knowledges from online learning as well.

Going to University

This year, There are three more students to go to university. Though the covid19 has been affected a lot of areas in Cambodia but the national exam will take place in early December as schedule. I hope our senior students will pass their exam in a very near future then they will pursue their higher education in the university they wish to go to.

Bachelor's Degree Graduation

Sothida ken, is one of our senior students, who learned with DCC ten years ago. Recently, she has been supported to go to university by DCC in cooperation with HELP's scholaship program for five years. Thida studied in the major of Law. She has just graduated her bachelor degree. We are very proud of her success. Thida is so much grateful to HELP Cambodia and her sponsors, Mark Stephen & his wife for transforming her life.
